

Y1 Thinking like a computer scientist

Recording sound

Key Knowledge:

A sound effect is a sound created to make something seem more realistic.

A sound effect is not speech or music.

Dialogue is speech by characters or a narrator in a story.

Sound effects and dialogue can be planned and rehearsed before recording.

Book creator is the software we will use to record sound effects and dialogue.

We will know the sequence of instructions to complete on the book creator software to make a recording.

Learning Questions

How do I record and add sound effects onto an e-book using a laptop?

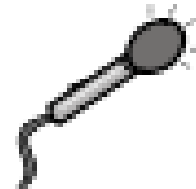

How do I record and add dialogue onto an e-book using a laptop?
