

Y1 Thinking like a geographer

Weather and Climate

Key Knowledge:

The months of the year:

The seasons of the UK:

Winter is cold, wet and windy. It snows in some areas and gets dark early.

Spring brings warmer weather. Flowers start to grow and baby lambs are born.

In summer, the weather becomes hotter; there is often less rain, but there may be thunderstorms.

The weather starts to get colder in **autumn**. Leaves change colour and fall off the trees.

Learning Questions

What is the order of the months of the year and seasons?

What differences between the seasons can we spot?

What clues are there to decide which season we are in?

What are the types of clothing worn in different weather?

What types of weather do we have in the United Kingdom? How can we record the daily weather in our area?

What does our weather diary tell us and how does the weather impact our activities?

Glossary

rain gauge: a tool you can use to show how much it has rained

season: a time of the year with a particular type of weather

temperature: how hot or cold it is
