Maths

In Maths, the children have been exploring learning how to use rulers and metre sticks to measure the length and height of objects around us. The children have really enjoyed exploring their environments and measuring objects, being able to order them by length or height, and comparing length and height as well. We are really proud of the progress the children have made this term in their Maths lessons.

Art

This term, the children have been working on painting and expressive marking. They have used primary colours to create patterns and marks, then used these to create secondary colours. They have also enjoyed making their own painting tools and then creating an artwork out of these.

Zoolab

The children thoroughly enjoyed their visit from Zoolab this term. We met a selection of animals, including Shelly the Snail, Milly the Millipede and a beautiful corn snake. They learnt lots of interesting facts, and showed real bravery in touching some of the animals!
