

Y3 Thinking like a Computer Scientist

Augmented Reality

Key Knowledge:

- Know how you to use shapes, lines and colour in Paint.
- Copy and paste images from the internet.
- Change canvas size in Paint
- Search and access specific websites.
- Evaluate and debug my image.

Paint	A computer program used to create digital images.
Resize	Changing the size of images or shapes within Paint.
Layers	Different levels at which you can place images or shapes in an editing program, allowing you to
Tool	A feature in Paint that allows you to perform a specific action, such as drawing, adding text, or

Learning Questions

What is Augmented Reality (AR) ?

How can I create my 360 degree image?

How can I improve my image?

What else have I learnt?
